Spinningwork is a brand new quartet formed during Covid lockdown, with all four band members composing together through the medium of Zoom. The Quartet have been invited to perform their first ever concert in Newcastle, which will also be recorded for the festivals' associated New Jazz and Improvised Music Recordings project, similarly conceived and launched during the height of the pandemic. We're delighted to invite an intimate live audience to hear this brand new music previewed for the first time and played acoustically, as we warm up the festival proper.
